

# Murphy Half Marathon • Murphy, TX • USATF Certification

TX19006MWC Effective February 20th, 2019 to December 31st, 2019.

Not to scale. Restrictions as noted.

Measured by Matthew Compton. mwc@timeandmeasure.com

**Description:** Start on track and run counterclockwise and take N.E. track exit ramp to the service lot behind the scoreboard. Run across the lot to the N.W. exit and turn right. Turn right at the end of the parking drive and follow till reaching the main drive across from the facilities building. Turn right, then turn left at the bus drop off drive behind Murphy MS and follow around school turning just before Murphy Road at wide sidewalk. Run North on sidewalk that skirts Murphy Road and follow until it exits onto the main drive for McMillen HS. Turn right, and then left at the bus drop-off drive behind McMillen HS. Follow drive around back of school until reaching Murphy Road. **Turn right onto Murphy Rd into middle lane** and follow into Parker. Turn left onto Gregory Ln, right on Grey Ln, right on Parker Rd. **Right into the East-most Northbound driving lane of Hogge Rd/Murphy Rd to Betsy Ln.** Left onto E Betsy Ln into the **North-most Westbound driving lane to McCreary Rd.** Right (South) on McCreary into the **West-most Southbound driving lane** until reaching the driveway to the water park. Enter the driveway and then immediately enter the trail system. Follow the trail as it winds West-Northwest and eventually terminates on McMillen Dr. Right (East) on the to South sidewalk of McMillen back to McCreary. Turn left on McCreary and **run North in the West-most driving lane back to Betsy.** **Turn left onto Betsy into the North-most Westbound driving lane.** Follow to Murphy Road. **Turn left on N Murphy Rd into the East-most Northbound driving lane.** Return to stadium using the exact same route as way used for outbound.

When the route rejoins Murphy Rd. from Westbound Betsy, return to finish using the same route as outbound from start.

**McCreary/Betsy Lane Transitions:**  
 Outbound = green Inbound = red  
 Cones placed on tangent with opposing curb radius.
